We warmly invite you to a virtual nine-month transformative journey of self-discovery.

Walking the path of the Goddess can radically shift how we experience the world.

When we embody Life through the lens of the Feminine, it can be both magical and delicious.

The veil between the physical and spiritual world lifts, and we are able to experience the Sacred in all of existence.

Following the lunar path of Equinoxes and Solstices, we will be traversing the inner landscapes in order to meet the Divine Feminine within.

The past several thousand years have seen an attempt to obscure and even obliterate the Great Mother. The result is a world disconnected from and even destroying our very own Earth. However, after millennia of repression and subjugation, we are witnessing the Feminine rising again. We believe we cannot become whole, cannot make our way back towards recognizing our Oneness, until the Divine Feminine reclaims Her place and is fully embraced in the consciousness of humanity. Thus, our Immersion is a place to reconnect, to retell the old stories, and to remember who we are: the birther, the dreamer, the weaver, the connector, the creator, the keeper of mysteries, the healer, the wise one, the maiden, mother and crone.

We are gathering in community to have these essential conversations and to explore together within our sacred container.

Our journey also incorporates a unique and fully supported **Goddess Quest** to commune with the Cosmic Mother in your own way. You will have your Goddess Guide and Sister Supporter to aid you in your Quest.

The story of the Goddess belongs to all genders and cultures.

She has always been an accessible deity: the warmth in our hearth, the fire over which to cook, the river whose water we drink, the soil that grows nourishment.

She is Mother Nature herself, and for many, the birther of the Cosmos. Throughout time we have seen Her revealed through a myriad of myths and faces:

Durga, Kali, Brigid, Pele, Rhiannon, Oshun, Yemaya, Mary, Guan Yin, Freya, Pachamama, Gaia, and countless more.

She has been revived, recast, and renamed throughout the ages, and her infinite aspects have evolved into a vast array of personalities and stories.

You may choose to sit in sacred circle in any space of your choice, or you may wish to join our unforgettable in-person Goddess Quest* September 13-16, 2024!

As the ancient saying goes: "As without, so within." Together our Goddess community journeys in a myriad of ways to find, greet and celebrate the Divine Feminine. Ultimately we come to understand that we need only look within to find the Cosmic Mother from whom we have never been separate.

*in-person Quest for an additional cost

The Great Mother archetype lives within all of us. Her heartbeat is found beneath the layers of worldly living, underneath the stories. Her face is that of every face we see, everything we touch, the ground we walk upon and the air we breathe. Having long preceded a male God, She symbolizes the Great Mystery of existence. Rather than an airy, hierarchical deity altogether separate from ourselves, She is found inside of us and in the physical world around us. She is not, nor has she ever been, separate.

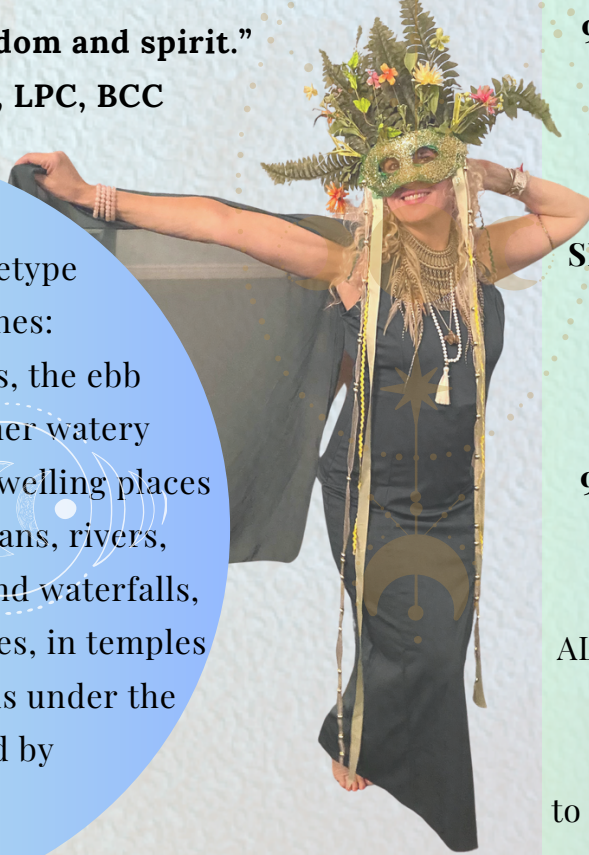

“The Triple Spiral Mystery School has provided me with an incredible community, participants and facilitators alike, that support my path of evolving to higher levels of self-awareness and spirit. Add to that the extra bonus of journeying with a new Goddess each month as we walk hand-in-hand with them to embody their wisdom and spirit.”

The images of the Primordial Mother archetype still linger in our psyches:

Her spirals, triangles, circles, the ebb and flow of her moons, and her watery womb of existence. Her sacred dwelling places include caves, mountains, oceans, rivers, wildflower meadows, streams and waterfalls, under the canopy of sacred groves, in temples built by devotees, in open fields under the moonlight, surrounded by ancient stone circles.

She received her Doctorate of Earth Ministry in 2022, facilitates Goddess workshops internationally, and is the founder of several organizations that support The Divine Feminine, girls, women, spirituality and the Earth, including The Durga Studio, Durga's Red Tent, a global sacred travel organization called Goddess Pilgrimages, The Lalla Project, and The Harvard Farmer's Market. Jennifer is committed to working towards a world in which Mother Earth and all beings upon Her are seen as sacred, are protected, and are treated with reverence. Jen believes an intimate relationship with the Divine Feminine is essential for this necessary awakening to occur.

Shiila Safer is an intuitive artist and coach who assists people in re-aligning with the natural world, providing practices to help us embody our wild, playful, creative, brilliant Goddess selves.

Shiila is passionate about working with women to renew their felt sense of belonging. As a Wild Women Group Facilitator, Expressive Arts Coach, artist, Creativity in Nature Coach, and author of three books, Shiila is dedicated to the empowerment of women through reawakening our deep connection with our Earth Mother and our own innate body wisdom.

Shiila is currently inspired by this inquiry, "How can we fall in love with Earth and Sky and live every day as if it is a love affair unfolding its mysteries?"

As we renew our loving relationship with Earth and all life, in respect, reciprocity and balance, Shiila believes we are ushering in the New Earth together.

Meet Shiila!

Bodhi Simpson is a visionary artist, art therapist, and teacher who incorporates work with imagination, compassion, creative expression, and deep ecology. She enjoys reconnecting people with the magic and mystery of the mythic, symbolic, imaginal realms and supporting the exploration of our relationship with our self and with Earth. She assists others in learning to "see" through the eyes of their hearts so that they may have an embodied encounter with life. Bodhi earned her PhD in Wisdom Studies in 2022 where she proposed a new paradigm that suggests that our own creative process is also a way of Earth knowing herself and is a contribution to Earth's evolution. Bodhi believes that when we learn to see with the eyes of our heart, compassion can guide our imagination, and we are inspired to consider the highest good as we vision a way forward and take action on behalf of Earth.
