We are seeking Leaders, people who understand the time is NOW for us to step forward in recognition of the Divine Feminine ~ with Her infinite faces and facets.

It is TIME for humanity to acknowledge and celebrate the myriad qualities of the Goddess...and within each one of us: Sacredness, connection, wholeness, healing, compassion, creativity, strength, courage, empathy, love.

She is...we are...the birther, the nourisher, the nurturer, the healer, the caregiver, the magician, the musician, the wild one, the midwife, the maiden, the mother, the crone, the creator, the destroyer, the lover, the wise one.

The past several thousand years have seen an attempt to obscure and even obliterate the Great Mother. The result is a world disconnected from and even destroying our very own Earth. However, after millennia of repression and subjugation, we are witnessing the Feminine rising again.

We believe we cannot become whole, cannot make our way back towards recognizing our Oneness, until the Divine Feminine reclaims Her place and is fully embraced in the consciousness of humanity.

May we as Priestesses offer our words, our actions, and our hearts to the Infinite Mother. May we stand in the Truth of this sacred offering.

“Walking the path of the Goddess can radically shift how we experience the world. When we embody life through the lens of the Feminine, it can be both magical and delicious.

The veil between the physical and spiritual world lifts, and we are able to experience the Sacred in all of existence. “
